## FMCG

---

Our company is ventured into manufacturing FMCG products. Our company is primarily into the production, distribution and marketing of Fast Moving Consumer Goods also known as consumer packaged goods like packaged food products, confectionaries, condiments, snacks, processed foods, tea, coffee, edible oils, soft drinks, beverages, soaps, detergents, shampoos, toothpaste, shaving products etc. We will also have separate line of genuine organic food and products for health conscious consumers.

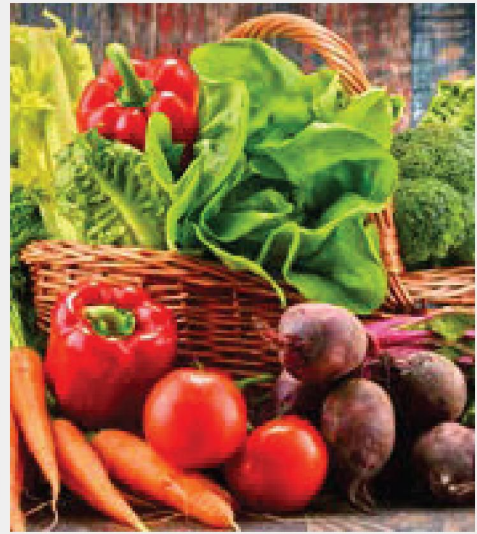

## Technology

---

At iFuture Globistic Technology, since our inception, our primary objective has been to **develop robust, custom solutions that help our clients operate more efficiently.** We use our expertise and experience to create solutions that have real impact on the present and future.

We are committed to providing best long-term solutions to our clients using our product expertise, in-depth knowledge and vast wealth of experience.

## Agro Farming

---

We are a natural farming company with end to end expertise in natural farming, including plantation development, agriculture and supply of agricultural products, like millets, food grains, pulses, fruits, vegetables, oil seeds etc. We are currently managing 2000+ acres of land across Andhra Pradesh.

# Engineering

---

We have highly sophisticated fabrication unit setup for all kinds of fabrication services. Our skilled and trained team is always ready to help you with fabrication and related services. With our first class workmanship and top class quality product with accuracy and precision have attracted and satisfied many reputed corporate clients. We service a wide variety of industries with an unmatched array of special industrial services.

# Products

---

iFuture Globistic is majorly engaged in manufacturing, trading and exporting a wide range of FMCG (Fast Moving Consumer Goods) and Agro products. Our company is primarily into the production, distribution and marketing of Fast Moving Consumer Goods like packaged food products, spices, confectionaries, condiments, snacks, processed foods, tea, edible oils, etc.

iFuture Globistic was established to provide information technology solutions for small to medium-sized businesses. We specialize in Cloud services and IoT devices & services along with product designing and development.

## Our Products

# ruca®

ruca® is our registered brand on a variety of product ranges packaged food products. Your magical journey into a world of spices, aromas and flavors starts here. Our spices are specially handpicked to suit the Indian palate. We strive to serve to the tastes of the Spices lovers so they can experience and explore the variety of Masalas.

Our products include a wide range of whole spices, powdered spices and blended spice powders. We are one of the few spice manufacturers in India with a reputation for high product quality, excellent service and variety of packing options.

## Chailicious®

Chailicious®, our registered brand name for Tea products and Tea masalas. Chailicious® was derived from Delicious Chai born from a desire to share our love for chai. We also have Chailicious Vehicle: Tea on wheels and Chailicious Outlets.

Tea has become a very common over-the-counter specialty beverage and there is a growing line of pre-packaged Chai products & Instant premixes. Our aim is to provide one-stop shopping for variety of best Tea flavors for Tea Lovers through various channels.

## Navastri®

---

Navastri®, is an initiative to cater to the rural women by providing a branded range of food and home products that suit the culture and heritage of rural communities.

With our brand, Navastri®, iFuture Globistic is working towards providing quality products at affordable prices as we understand that rural women are more value-centric and demand value for money and not cheap products. We want rural women to connect with our brand: Navastri® for its products trustworthiness and reliability.

## Quicxly™

---

Quicxly™ is comprehensive cloud human capital management (HCM) software for managing the entire employee lifecycle. Quicxly™ provides a platform that combines HR, payroll, benefits, workforce management and talent management in a single application. Our platform helps you manage the entire employee lifecycle, from recruiting and on boarding, to paying people and developing their careers.

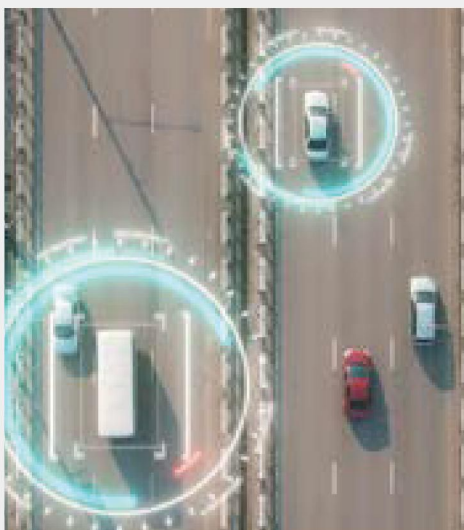

## Grab Auto Parts™

---

Grab Auto Parts™ is another project through which we plan to provide support services to customers by locating the requested car parts from various Salvage yards, Junkyards and Auto part recycler & resellers. Grab Auto Parts is an online auto parts locating service. Our service is set up to take all the legwork out of the customer having to call around from Junkyard to Junkyard, various Garages looking for auto parts for their vehicle.

We act as auto parts locator on behalf of customer to make the process easy for the customer to buy auto parts from our network of yards nationwide.

## Trackia™

---

Trackia™ is our plug & play tracking device with minimum installation. We have three versions that have features like real time tracking, speed alerts, geo-fencing alerts, route planning, fuel monitoring, collision detection, theft alerts, no parking alerts, emergency call support and many more features.

With Trackia™ you can ensure safety of your loved ones, identify vehicle misuse by your driver, track your car from the web and smartphone and protect your vehicles from theft.

## Agro Products

---

As part of our long term growth strategy in India we are building a consumer network that relishes and stays healthy with our natural grown products, and a modern food supply chain that will include modern food processing technology and cold storage capabilities.

We believe in producing the most pristine, high quality food products. Our products include many varieties of millets, maize, oil seeds and fruits & vegetables etc.
